

Terraform configuration = chapri.tf file

Terraform me coding blocks ke format me hoti hai..

```
block_type {  
  arguments/attributes  
}
```

Kon kon se block hote hai

Block se Block judke hi toh Infrastructure banta hai...

Inhi block pr loop mareng... Count and for_each

Syntax of Blocks

```
BlockType {  
  features{}
```

```
Block_Type Label1 {  
  provider "azurerm" {  
    features{  
  }  
}
```

BlockType	Label1	Label 2 {}
-----------	--------	------------

```
resource "azurerm_resource_group" "example" {  
  name      = "example"  
  location  = "West Europe"  
}
```
