Training mein jitna zyada pasina bahaenge, jung mein utna hi kam khoon bahaana padega.

Har din behtar bano... Safar lamba hoga lekin bdia hoga...

- By Pankaj Ji

Problem

Sab ek saath hai toh ladai to hogi!

Solution

Sab ko alg alg flat me rakh do!

**TODA FODI MACHANE KE TARIKE**

1. Resource level toda fodi

Har Resource ke lie ek alg folder bana dia..

Aur har folder me apna apn resource block dal dia aur provider bhi dal dia....

Dil Laga terraform se, Pari kya chiz hai...

Terraform Modules

dhondhu.tf
- provider block
- rg block
- storage account block

Dard

|	
1. Provider.tf alg alg banana	✅
2. Alg alg init chalana, alg alg provider download karna...	✅
3. Baar baar alg alg folder me jana pd raha hai...	✅
4. Pehle rg chalao, fir storage me jake chalao..	
5. Alg alg state file bn raha hai...	✅

devops2189 - tfstate container

resource_group.terraform.tfstate

storage_account.terraform.tfstate

azurerm_resource_group

resource_group.tf

.terraform

azurerm-provider.exe 200 MB

provider block

rg block

azurerm_storage_account

storage_account.tf

.terraform

azurerm-provider.exe 200 MB

provider block

storage account block

Do Alg alg folder ke beech me implicit ya explicit dependency nahi lg paega

common_ground

common_ground.tf

azurerm_resource_group

azurerm_storage_account (dependson - rg)

∨ CLASS5
